Juan Vega
Executive Director
 MBA MEngSc BEng BMgt
 FIEAust CPEng EngExec

Industry expert employing his comprehensive knowledge, respected leadership, and collaborative approach to positively impacting project outcomes.

Kris Loyola
Executive Director
 BEng (Hons) ACIArb MAICD

Highly respected planning and delay analysis expert and has been involved in disputes exceeding \$2 billion in disputed costs.

Andrew Collins
Executive Director – Expert Services Delay & Disruption
 LLM MSc BSc (Hons) MRICS

Seasoned professional experienced in forensic delay analysis, project planning, and cost engineering boasting a track record of success on global projects.

Vikram Telang
Senior Assc. Director
 BEng DipEng GradCert
 MIEAust

Head of Project Controls utilising his expertise to implement best practices and precise schedule forecasting for successful project delivery.

Pauline Bridge
Planning & Project Controls Director
 Dip HNCEng HNDEng

Specialises in implementing robust project controls, fostering innovation in 4D program development, delivering exceptional results in infrastructure operations.

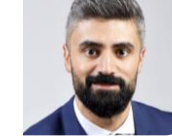

Lili Salehi
Project Controls, Planning & Master Scheduling Specialist
 MEng BIndEng

Known for her passionate and collaborative approach, with exceptional problem-solving skills and a track record of delivering successful outcomes through teamwork.

Habib Malikapurayil
Senior Project Planner
 BEng GradDip PMP

A valuable asset in achieving optimal project outcomes having successfully led teams, implemented financial controls and excelling in project scheduling and monitoring.

Raed Albadi
Senior Project Planner
 BEng PMP

Recognised for his effective project leadership, thorough delay analysis, collaborative approach, and proactive problem-solving, ensuring on-time and within-budget project delivery.

Ankan Dutta
Senior Planner & Delay Analyst
 BEng MBA

Proficient in leading teams, reducing costs, implementing process improvements, and leveraging analytical skills to benefit clients.

Nilesh Jathar
Senior Project Planner
 BEng (Civil) MBA PMP

Excels in project control, planning, and scheduling for diverse construction projects, ensuring efficient coordination, effective leadership, and precise communication with stakeholders.

Patrick Steve
Senior Project Planner
 B-Tech MBA MCIOB, APE,
 ACIArb

Recognised for his multi-discipline project planning, contract management, stakeholder engagement, and consistently successful contract execution through a results-driven approach.

Yahia Ghita
Senior Project Planner
 BEng PMP PSP
 IMPA PRMG

Exceptionally skilled in implementing quantifiable controls to improve project outcomes, while also managing program creation, monitoring, reporting, and coordination.

Jenifer Pfluck
Project Planner
 BEng PGDip

Specialising in cost estimation engineering, planning, and cost control. With a proven track record in project management and contract administration.

Jenny Jeun
Project Planner
 BIndEng

A motivated project scheduler, efficiently manages schedules, fosters consortium coordination, and excels in communication for optimal project performance.

1. Transportation Infrastructure:

- Roads and highways
- Bridges and tunnels
- Ports and harbors
- Airports and aviation facilities
- Railways and train stations
- Public transportation systems (e.g., buses, subways, trams)

2. Utilities Infrastructure

- Energy generation, transmission, and distribution (electricity, natural gas, etc.)
- Water supply and distribution
- Wastewater and sewage systems
- Telecommunications networks (fiber optics, mobile networks, etc.)

3. Information Technology Infrastructure

- Data centres and server farms
- Internet backbone networks
- Fiber optic and cable networks
- Cellular and wireless infrastructure

4. Public Facilities and Amenities:

- Schools and educational institutions
- Hospitals and healthcare facilities
- Government buildings (e.g., courthouses, city halls)
- Parks and recreational areas
- Cultural and sports facilities (e.g., stadiums, museums)

5. Energy Infrastructure

- Power plants (e.g., nuclear, coal, renewable energy)
- Electrical grids and substations
- Fuel storage and distribution facilities

6. Water Resources Infrastructure

- Dams and reservoirs
- Irrigation systems
- Flood control infrastructure
- Water treatment plants

7. Environmental Infrastructure:

- Waste management facilities (landfills, recycling centres)

8. Industrial Infrastructure

- Manufacturing facilities and industrial parks
- Warehouses and logistics centres

9. Social Infrastructure

- Housing and residential developments
- Social housing projects
- Community centres and social services facilities

10. Financial and Economic Infrastructure

- Banks and financial institutions
- Stock exchanges
- Trade and commerce facilities (e.g., ports, trade zones)
